

Where Could Pharmacy Take You?

Pharmacy is about far more than dispensing medicines. From supporting patients and prescribing treatments to developing new medicines and shaping healthcare policy, pharmacists and pharmacy graduates can build careers across a wide range of sectors.

Clinical and Patient-Caring Pharmacy

- Community Pharmacist
- Hospital Pharmacist
- GP Practice Pharmacist
- Specialist Clinical Pharmacist

Work directly with patients and healthcare teams to optimise medicines, manage conditions and improve patient outcomes.

Pharmaceutical Industry and Research

- Drug Discovery and Research
- Clinical Trials
- Medical Science Liaison
- Regulatory Affairs

Contribute to the development, evaluation and responsible use of medicines, from scientific research to pharmaceutical industry roles.

Public Health, Education and Leadership

- Public Health
- University Teaching and Research
- NHS Leadership
- Medicines Policy

Improve healthcare at a wider level through education, research, public health initiatives and leadership.

Alternative and Emerging Pathways

- Medical Writing
- Digital Health and Healthcare Technology
- Military Pharmacy
- Entrepreneurship

Explore opportunities that combine pharmaceutical knowledge with communication, innovation, technology and business.

A pharmacy degree can open more doors than you might expect.

PharmWex

PharmWex supports aspiring pharmacists with practical guidance for the application journey.

YOUR FUTURE IN PHARMACY

1. How Do You Get There?

Some careers require additional qualifications, specialist training or experience. Not every industry or research role requires pharmacist registration, and registration routes differ across the UK.

2. Which Pathway Suits You?

1. Do you enjoy working directly with patients?

2. Are you interested in scientific research and developing medicines?

3. Do you enjoy leadership, communication or problem-solving?

4. Which pharmacy career would you most like to explore, and why?

3. Discover More With PharmWex

Your Pharmacy Journey Starts Here.

Join the PharmWex community to explore pharmacy careers, hear directly from professionals and discover opportunities beyond the classroom.

Final application checklist

Use this final check before you submit your UCAS application.

- ☒ I understand what pharmacists do
- ☒ I have researched each university using current official sources
- ☒ I have recorded what I learned from relevant experiences
- ☒ I have planned specific evidence for my UCAS responses
- ☒ I have checked the latest UCAS guidance
- ☒ I have prepared questions and practised explaining my thinking
- ☒ I have verified every date, requirement and link before submitting

Official resources

Always use official sources for the latest requirements and guidance.
